

GREEN ROOM

- Water is requested
- Tea, coffee, and peanut protein bars are welcome, but not expected
- If alcohol is offered, Nick and Alex are happy with pale ales or whiskey of any kind. Dani often does not drink while we are on-tour, but ginger ale is welcome.
- Are the venue or green room dog-friendly? We typically travel with a well-behaved lab mix named River. She can stay in the van conversion if needed, but we would prefer to bring her into the green room (especially in hot summer months).

DIETARY RESTRICTIONS

- No almonds or pork for Dani
- No avocados for Alex
- We try to eat healthy if we can, but are not picky

LODGING

- We travel in a van conversion that sleeps the three of us. A safe place to park, use the restrooms, and shower is welcome.
- If a hotel or host lodging is provided, we ask for one dog-friendly room with a full, queen, or king-sized bed (Nick and Dani are married), as well as one room with a single bed for Alex.
